## 👉 Don't Forget!!!

### PUMPKIN CHARACTER PROJECTS 📖

- Foam pumpkins are due this **Friday, October 6<sup>th</sup>**.
- To prepare for our Pumpkin Character Project, each student will need to choose a fiction book to use for their project. They will be turning their pumpkin into one of the characters from the book they choose. They can choose a book from home or school. If they choose a book from home, please send the book into school by **Monday, October 9<sup>th</sup>**.
- If you would like to help out with pumpkin projects, sign up **[HERE](#)**

## ✂️ In the Classroom...

**Literacy:** We will continue to read more fall themed stories this week. Our focus will be to retell the main details in the Beginning, Middle, and End. You can practice this at home too!

**Math:** The students have been working on making and solving addition number sentences and creating addition math stories. We will begin learning different strategies to help us begin doing more mental math. This week we will practice counting on and learning our "Friends of Ten" facts.

**Science:** This week the students will be able to identify and explain the difference between living and non-living things. They will ask these questions just like a scientist does:

- Does it eat?
- Does it breathe?
- Does it grow?
- Does it make more?
