10:15 - 11:30am

Don't Forget!!!

PUMPKIN CHARACTER PROJECTS

- This week the students will begin PLANNING their pumpkin project. They will be bringing home a list of materials they might need for their pumpkin. I have paint and a few materials such as google eyes, yarn, pipe cleaners, foam) but if your child needs something specific for their pumpkin character, you will need to send that to school.

In the Classroom...

Literacy:

This week we will read Non-Fiction Books about Pumpkins to learn more about the Pumpkin Lifecycle. We will also investigate the parts of a pumpkin.

Math:

The students will continue to learn more strategies to help them add numbers up to 20 more fluently. This week we will be using the number line to help with this.

Science:

To continue our learning about Living and Non-Living things, the students will be doing an experiment comparing gummy worms to real worms. They will also be measuring, weighing, and floating real pumpkins to investigate why pumpkins are living things too!

Thank you to the Kruse Family for donating the real pumpkins to our classroom for this activity! 

We will be learning about spiders and will be having a spider celebration on Tues., October 31st. If you would like to donate items or help out with this please sign
